FBLA Collegiate

Future Business Leaders of America (FBLA) is the largest career student business organization in the world. Each year, FBLA helps over 200,000 members prepare for careers in business. FBLA inspires and prepares students to become community-minded leaders in a global society through relevant career preparation and leadership experiences.

FBLA Goals:

- Develop competent, aggressive business leadership
- Strengthen the confidence of students in themselves and their work
- Create more interest in and understanding of American business enterprise
- Encourage members in the development of individual projects that contribute to the improvement of home, business, and community
- Develop character, prepare for useful citizenship, and foster patriotism
- Encourage and practice efficient money management
- Encourage scholarship and promote school loyalty
- Assist students in the establishment of occupational goals
- Facilitate the transition from school to work

FBLA Creed:

I believe education is the right of every person.

I believe the future depends on mutual understanding and cooperation among business, industry, labor, religious, family, and educational institutions; as well as people around the world. I agree to do my utmost to bring about understanding and cooperation among all of these groups.

I believe every person should prepare for a useful occupation and carry on that occupation in a manner that brings the greatest good to the greatest number.

I believe every person should actively work toward improving social, political, community, and family life.

I believe every person has the right to earn a living at a useful occupation.

I believe every person should take responsibility for carrying out assigned tasks in a manner that brings credit to self, associates, school, and community.

I believe I have the responsibility to work efficiently and to think clearly. I promise to use my abilities to make the world a better place for everyone.

FBLA Pledge:

I solemnly promise to uphold the aims and responsibilities of Future Business Leaders of America, and as an active member, I shall strive to do my best to develop the qualities necessary in becoming a responsible business leader.

PREFACE

The 2023-2024 edition of the North Dakota FBLA Collegiate Chapter Handbook should replace any versions that were used in past years.

Members and advisers are reminded that this document contains only North Dakota FBLA Collegiate forms and North Dakota FBLA Collegiate competitive event regulations and procedures. Chapters should access the FBLA website at www.fbla.org for national information, including chapter management and NLC competitive event guidelines.

There have been changes and additions to this edition of the handbook, and we ask that you please contact the North Dakota FBLA State Office if there are errors or omissions. Highlights of this year's changes appear below. However, please read through the entire handbook as your chapter prepares for the State Leadership Conference, and please pay close attention to the checklist of deadline dates that appear in the "Official Information" section of the handbook.

Changes to this edition:

- **Computer Concepts** – Computer Concepts will be renamed **Foundations of Technology**.
- **Entrepreneurship Concepts** – Entrepreneurship Concepts will be renamed **Foundations of Entrepreneurship**.
- **Management Concepts** – Management Concepts will be renamed **Foundations of Management**.

Procedural Change

- Remove the repeat competitor rule. Currently, once a member is in the top ten of an event, they are not allowed to compete in the same event again. This procedural change is proposed to encourage competition. The competition topics and case studies change every year.
- Increase the number of entries to the National Leadership Conference – Currently, states can submit three entries in objective tests and two entries in all other events. To mitigate the financial impacts of reducing from 53 to 31 events, this procedural change will increase the number of entries from state to **four** for each event. Competitors can still choose two events to participate in at NLC.

Reminders:

- Competitors need to read/use the state guidelines for SLC and read/use the national guidelines for NLC. The guidelines are different for some events!
- ND FBLA Collegiate will use national competitive event rating sheets.
- Performance events and interviews are not open to conference attendees.
- Since the State Leadership Conference is often held in a conference center, there will be a limited number of computers available for online testing. Students are encouraged to bring their own laptops when possible, and they will be given the login information to take the online test.

Projecting a professional image is vital for business leaders to demonstrate respect for clients, colleagues, and others. This policy is to provide guidance for conference attendees—students, advisers, and guests. Professional business attire is required at all general sessions, competitive events, exhibits, regional meetings, workshops, and other activities unless otherwise indicated in conference materials.

Conference name badges are considered part of the dress code and must be worn at all conference functions. For safety reasons, do not wear conference badges outside of the conference area. The dress code is gender neutral.

2024 ND FBLA COLLEGIATE STATE LEADERSHIP CONFERENCE

"Together We Achieve"

The highlight of the year in North Dakota FBLA Collegiate is the State Leadership Conference, which will be held in Mandan, on April 7-8, 2024. This exciting leadership conference provides members with many opportunities for leadership development, informative workshops, and an opportunity to participate in the competitive events program. Winners in the competitive events are eligible to compete at the National Leadership Conference in Orlando, FL, on June 24-27, 2024.

This conference registration guide contains all the information and forms necessary to register members for the State Leadership Conference. Please read this section very carefully. If you spot a problem or conflict, please notify the state office immediately. Others will have the same concern.

COMPETITIVE EVENT INFORMATION:

Members are allowed to compete in three (3) individual/team events and one chapter event (Community Service Project or State of Chapter Presentation). Individuals and/or teams are responsible for providing their own laptops/devices for performance events.

Objective tests will be taken online. Calculators will be provided in the testing system for all events. Ties will be broken by comparing the performance of affected members on the last ten questions of the exam.

The **Community Service Project** report is to be uploaded in Blue Panda as a PDF file by the specified date.

The **Future Business Educator**, **Future Business Executive**, and **Job Interview** application materials must be submitted as a PDF file in Blue Panda by the specified date.

Computer Applications production test will be administered at the school. Two hours will be allowed for the skills portion of the test. **The objective test portion of Computer Applications will be taken at the State Leadership Conference.** The writing exercise for **Business Communication** will be administered at the school prior to the conference.

These tests/writing exercises are to be administered by someone at your school site other than the adviser. The designated school site test administrator will be sent the tests. Advisers may help with equipment set-up for the skills portion of any tests but may not be present in the testing room, and advisers should not see any of the tests. All tests must be completed in one sitting. For example, a two-hour test cannot be started from 8 to 9 a.m. and then finished from 2 to 3 p.m.

UPDATED PROCEDURES:

- FBLA Collegiate members will now be allowed to compete in any two individual/team events, plus compete in one chapter event (State of Chapter Presentation or Community Service Project) at NLC. This would allow an FBLA Collegiate member to potentially compete in a maximum of three events at NLC.

REMINDERS:

- All members and advisers are responsible for reading and following competitive event guidelines.
- If competitors are late for a competitive event, there are no guarantees they will get to compete. Competitive event schedules cannot be changed. PLEASE NOTE that competitive events may start before the opening session of SLC or NLC.
- Competitors may be disqualified if they violate competitive event guidelines.
- Five points may be deducted for each instance of not following guidelines.
- No animals (except authorized service animals) will be allowed for use in any competitive events.
- Please note that Internet reliability at any conference venue cannot be guaranteed. Always have a backup plan in case Internet connections go down.
- Participants using laptops or other devices that do not have an HDMI port will need to provide their own adapters.
- All rating sheets may contain changes/modifications.

STATE OFFICER CANDIDATES:

Your chapter may have three state officer candidates. All necessary information and forms needed to apply can be found in the forms section.

NATIONAL OFFICER CANDIDATES:

Any member wishing to be considered as a national officer candidate must submit the application materials required to receive support from the North Dakota state chapter. Applications can be found in the forms section.

MEMBERSHIP:

Be certain all members attending the ND FBLA Collegiate State Leadership Conference have joined both the ND state and national chapters. Procedural Change

- Remove the repeat competitor rule. Currently, once a member is in the top ten of an event, they are not allowed to compete in the same event again. This procedural change is proposed to encourage competition. The competition topics and case studies change every year.
- Increase the number of entries to the National Leadership Conference – Currently, states can submit three entries in objective tests and two entries in all other events. To mitigate the financial impacts of reducing from 53 to 31 events, this procedural change will increase the number of entries from state to **four** for each event. Competitors can still choose two events to participate in at NLC.

Reminders:

- Competitors need to read/use the state guidelines for SLC and read/use the national guidelines for NLC. The guidelines are different for some events!
- ND FBLA Collegiate will use national competitive event rating sheets.
- Performance events and interviews are not open to conference attendees.
- Since the State Leadership Conference is often held in a conference center, there will be a limited number of computers available for online testing. Students are encouraged to bring their own laptops when possible, and they will be given the login information to take the online test.

2023-2024 Topic: Ethical Implications of Chatbots in the Business World

Artificial intelligence (AI) is seen by many as the next technological advancement meant to revolutionize society, in the same vein as the printing press, the internal combustion engine, or the internet.

While some limited AI tools have been in use for years (e.g., search engines, manufacturing robots, voice recognition software), a far more complex AI technology has recently made enormous strides: deep learning generative AI. These widely available programs most commonly take the form of chatbots, such as ChatGPT, Google Bard, and Bing Chat, or content generators like DALL-E and Midjourney.

Using natural language processing (NLP), chatbots are now capable of understanding complicated requests and responding in an equally sophisticated manner. These systems are simply language models, meaning they are limited to generating text or images in response to user queries and are not capable of independent actions or thoughts. However, even a brief exploration of ChatGPT or DALL-E's capabilities will reveal just how complex and adaptive these systems truly are.

Generative AI is already being leveraged by businesses and organizations to automate tasks, collect information, and improve the customer experience. Chatbots can provide customer support, conduct market research, and even offer real-time translation services. They can also be used to generate more creative content for marketing and product development purposes, such as social media posts, original images and videos, and technical documentation.

Business Ethics (Collegiate)

However, the increased capabilities of generative AI pose various ethical dilemmas for the organizations who choose to employ them.

Identify a potential ethical problem from the invention of Artificial Intelligence applications. Discuss its impact on the world of business and provide a solution.
